

SG IP FAST Pilot Programme extended till 31 December 2024

The SG IP FAST pilot programme has been extended till 31 December 2024.

Launched as the SG Patent Fast Track programme on 1 May 2020, this programme aimed to support the acceleration of patent applications in all technology fields, and was quickly expanded on 1 September 2020 to cover the acceleration of associated trade mark and registered design applications. Our updates on the launch of the SG Patent Fast Track programme and its subsequent expansion can be accessed in the links below:

- [Launch of new SG Patent Fast Track programme](#)
- [Expansion of Fast Track Programme to include Trade Mark and Design Applications](#)

Originally slated to end on 30 April 2022, IPOS first extended SG IP FAST for 2 years to 30 April 2024, and has now further extended the programme till 31 December 2024. Requests for acceleration of applications will be complimentary till further notice.

Under SG IP FAST, an applicant can expect the following accelerated timelines:

- Straightforward patent applications can be granted in as little as 6 months, while non-straightforward ones can take up to 9 months
- Straightforward trademark applications can be registered in as fast as 3 months, and non-straightforward ones in as fast as 6 months
- Registered design applications can be registered in as fast as 1 month.

There is a monthly cap of 10 patent applications, with a further limit of 2 patent applications per entity (individual or corporate). However, there is no cap on the number of trademark and registered design applications that can be accelerated.
